

Full-stack developer who turns operational problems into secure, maintainable products. Recent work spans public-sector publishing, membership and finance operations, serverless AI document workflows, and geospatial systems using TypeScript, React, Next.js, Supabase/PostgreSQL, and Vercel.

PROFESSIONAL EXPERIENCE

Table Tennis Saskatchewan · Saskatoon, SK

Aug 2025 - Apr 2026

IT Specialist & Full-Stack Developer · Project Lead

- Built a React/Vite, TypeScript, and Supabase platform spanning memberships, bookings, events, finance, reporting, and role-aware administration.
- Designed PostgreSQL schemas and Row Level Security; integrated Stripe webhooks, Google Calendar synchronization, Edge Functions, and server-generated PDF invoices.
- Changed a ~968KB monolithic entry into a ~183KB main entry through route and vendor splitting; vendor chunks load and cache separately.

Quest Disposal · Vegreville, AB

May 2024 - Jul 2024

IT Specialist & Web Developer

- Mapped paper-heavy workshop operations into a shared work-order model with mechanic, administration, and management perspectives.
- Prototyped role-aware operational views and connected workflow improvements with PowerApps, Power Automate, Microsoft 365, and public-site work.

CNS Engineering & Storak Digital · Lahore, PK

Jan 2022 - Nov 2023

Cloud Architect

- Designed AWS delivery and compute patterns using S3, CloudFront, Lambda, EC2, IAM, and VPC networking for client web workloads.
- Built event-driven workflows and maintained secure, isolated hosting environments with an emphasis on reliability and lower operational overhead.

SELECTED SYSTEMS

LLRIB Website Modernization

Next.js and Supabase public/staff platform with typed content models, migration tooling, document library, jobs, news, services, communities, and staff publishing boundaries.

AI Career Document Engine

Serverless workflow for source-PDF extraction, job-aware generation, required-section validation, and downloadable resume or cover-letter PDFs.

PostGIS Road Matcher

React, Vercel Functions, and PostGIS MVP that maps photo/device GPS to spatially indexed road geometry and explains raw versus snapped location.

Dynamic Ramadan Wallpaper

Stateless Next.js/Sharp image service that encodes configuration in a durable URL and renders time- and location-aware phone wallpapers.

TECHNICAL SKILLS

Application	TypeScript, JavaScript, React, Next.js, Vite, Tailwind CSS, REST APIs
Cloud & Data	Supabase, PostgreSQL, PostGIS, AWS Lambda, S3, CloudFront, EC2, Docker, Vercel
AI & Automation	OpenAI-compatible APIs, Agents SDK, Codex/Playwright workflows, n8n, Power Automate
Security & Systems	RLS, RBAC, IAM, OAuth/JWT, networking, Windows/macOS administration, Tier 2 support

EDUCATION

Postgraduate Certificate, Cloud Computing & Blockchain · Saskatchewan Polytechnic	Jan 2026
Bachelor of Computer Science · University of Central Punjab	Nov 2023
